This metal finish chart is provided as a guideline only. It's likely that the actual finishes will vary to some degree from those depicted herein, due to difficulties involved in photographing these highly reflective surfaces, differences between the various devices, monitors and browsers being used, and to other factors beyond our control. As such, these finishes should not be considered to be an exact representation of the actual finish. Should you desire to see the actual finish, please contact us to request a sample.

* Please note that there are several additional handcrafting operations involved in attaining our distinctive Antique Brass, Statuary Bronze, and Duo Bronze finishes. These operations require that we assess a set-up fee of \$200.00 on orders for these finishes that net to \$1,500.00 or less (exclusive of freight or other non-product expense.)
