

### **Desktop Essentials from A to Z...**

The desktop and office tools you need to do your job. From Desk Pads and Letter Trays to Waste Receptacles and Conference Room Accessories; in short, everything you need to function efficiently in the workplace.

### **One-Stop Shopping for all Organizational Levels...**

A variety of accessory collections, materials, and finishes allow you the flexibility to outfit employees at all levels, executives, professionals, directors, managers and support personnel alike. Ask us to help custom design a standards program specifically for your organization.

### **Designed by Architects and Designers, for Architects and Designers...**

Many of our accessories were designed through collaboration with noted architectural firms and designers, among them Skidmore, Owings and Merrill, William Sklaroff and Peter Muller-Munk.

### **Projects. Day-to-Day Needs. Custom Products...**

Whatever your need, we make it easy. Smith McDonald - Your one-stop accessory solutions provider.

### **Museum Quality Items...**

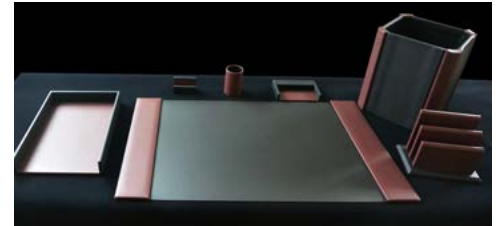

Not just an idle phrase - our Radius One collection is on permanent display at the Museum of Modern Art in New York City, and many of our items are proudly displayed at the Buffalo Historical Society.

### Can't Find Exactly What You're Looking For?

Give us a call. Most of our standard products can be easily modified, and we have many in-house capabilities.

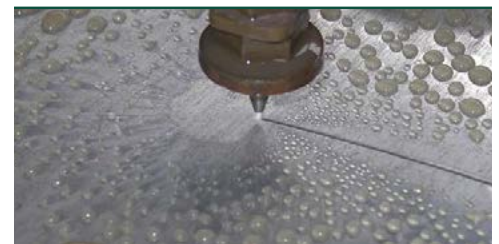

### Welcome to the newest additions to our Smith McDonald family!

Smith McDonald is proud to introduce two new pieces of equipment, an Industrial water jet cutter and the Zund digital cutter, in addition to our Powder coating lines, metal and wood shops.

**A water jet cutter** is a tool capable of slicing into metal or other materials using a jet of water at high velocity and pressure, or a mixture of water and an abrasive substance.

**Ability to cut:** Metals, plastics, wood and other materials.

**Zünd cutting systems** excel in delivering both exceptional productivity and unsurpassed cut quality. This is the result of a perfect symbiosis between intelligent control technology and precision mechanics.

**Ability to cut:** Aluminium, Vinyls, Rubber, Wood, Twin-wall Sheets, Carton, Plastics, Leather, Paper, Foam, Textiles, Composite material and Corrugated cardboard
