

Desk Pads

Our desk pads are available in a variety of styles for the right fit and budget. Whether you choose economical linoleum, mid-range vinyl, or total luxury leather, our desk pads will protect your work surfaces, while enhancing the look of your office.

Choose from simple pads or pads with striking metal or leather accents. We offer a variety of shapes and sizes, all handcrafted in our factory in Buffalo, NY. We even do custom pads—need a special size, or want to use your own material? We would love to help you realize your vision.

Make it your own with personalization. Most desk pads can be embossed to create the ultimate in personalization—think company logo or personal monogram.

Conference Table Pads

Don't forget the conference room. Smaller pads are essential in the conference room, to protect the meeting table from laptops and pens, or as placemats when serving food and beverages. Smith McDonald conference pads are available in the same variety of materials, sizes and shapes as our larger desk pads. Consider adding a company logo, too, for a really big impression at your meetings.

Wastebaskets

Whether you're looking for Fire Retardant Plastic, Plastic, Metal, or Leather Wastebaskets, Outdoor Receptacles, or filling out a project with Recycling units, you have come to the right place.

Our baskets are fabricated from high quality materials, feature a variety of accessories to match and are available in a wide range of colors to suit your specific design needs.
